

PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience in building, optimizing, and scaling web-based enterprise applications. Proven track record in UI rebranding, accessibility (WCAG) compliance, feature enhancement, CI/CD pipeline troubleshooting, and automation using Selenium. Proficient in JavaScript, TypeScript, and C#, with a strong foundation in Data Structures and Algorithms (DSA), Object-Oriented Programming (OOPs), and Database Management Systems (DBMS). Demonstrates excellent logical reasoning and critical thinking, with a passion for solving real-world software problems. Seeking a software developer role in your organisation where I can build scalable, high-quality solutions.

WORK EXPERIENCE

Deltek, Bangalore (Remote)

- **Associate Software Engineer** **02/2023 – Present**
 - Led end-to-end UI rebranding for our Gen3 application.
 - Implemented WCAG compliance standards, improving product accessibility for users with disabilities.
 - Resolved bugs, performance issues and customer-reported critical defects under strict deadlines.
 - Developed and deployed new product features with a focus on usability and maintainability.
 - Troubleshoot and resolved CI/CD pipeline failures, improving stability, performance and deployment efficiency.
 - Wrote automation test code using Selenium, increasing test coverage and reducing manual effort.
 - Resolved 400+ dependabot and security alerts to reduce code vulnerabilities and improve overall application security.
 - Tech and Tools: JavaScript, TypeScript, C#, Ember JS, NVM, Visual Studio, VS Code, Claude
- **Software Engineering Intern** **07/2022 – 01/2023**
 - Analyzed application logs to identify root causes, enabling faster and more efficient bug resolution.
 - Collaborated with senior engineers and team leads to debug and resolve critical production issues in large-scale systems.
 - Contributed to improving system reliability by supporting bug fixes and maintenance tasks in a production environment.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, C#, Python, C, C++
- Frontend: HTML, CSS, React.js
- CS Fundamentals: Data Structures and Algorithms (DSA), DBMS, OOPs Concepts
- Tools & Platforms: Git, GitHub, npm, Selenium, Visual Studio, VS Code
- Database: MySQL, Postgres
- AI Tools: Claude, ChatGPT, Copilot, Cline – development, debugging, code review, research and brainstorming
- Project Management: Jira
- Soft Skills: Logical Reasoning, Critical Thinking, Problem Solving

EDUCATION

- **Bachelor of Technology – Computer Science and Engineering** **07/2018 – 06/2022**
 - Integral University, Lucknow – 89.2%
- **Senior Secondary Education** – St. Michael's High School, Patna | 82.4% **2017**
- **Secondary Education** – Shanti Mission Academy, Saharsa | 10 CGPA **2015**
